

RII30920

Certificate III in Civil Construction

Location

Trainers available throughout Western Australia to train and assess your course.

Mode

Workplace-based training and assessment.

Duration

Course duration is 12-24 months; Trainer contact scheduled every 4-6 weeks.

When

Contact our team on 1300 767 454 to commence your training enrolment.

Is this course for me?

This qualification covers the skills and knowledge required for individuals working as skilled operators with civil construction, who apply a broad range of skills in varied work contexts.

Through theory and practical course work you will learn to:

- Read and interpret plans and job specifications
- Operate small plant and equipment
- Work safely and follow WHS policies and procedures
- Carry out measurements and calculations

This course suits those wanting to pursue a career in civil construction and those who are already working in the civil construction industry looking to formalise their skills and knowledge with a qualification.

Career Opportunities

This course has a variety of career opportunities and is applicable to a diverse range of roles in the civil construction industry:

- Site maintenance
- Construction worker
- Leading hand
- Supervisor

Entry Requirements

There are no prerequisite entry requirements; however you must:

- Show a satisfactory level of language and literacy skills, which will be established at the time of enrolment
- Show a genuine interest in the civil construction industry

Core Competencies

There are 25 units required to be completed in this qualification, 8 core units and 17 elective units. The course structure is made up of the following:
